

# -9- ENRICHMENT PROGRAMS

## Magical ART Mystery Tour

(Grades K-5)

Abracadabra, Hocus Pocus, its magic, and mystery with art as the focus! Magical Art Mystery Tour draws children into a world of wonder, revealing unbelievable art tricks and inspiring out-of-the-box creativity. Experiment with new and mysterious mediums and discover surprising techniques to transform familiar materials into magical masterpieces. Sculpt clay lizards and build lizard playgrounds out of sticky magic "noodles". Create colorful ceramic piggy banks, whimsical Model Magic owls and scratch a work of art inspired by the artist, Miro. Wave wands over T-shirts to form magical designs using fabric printing inks and stir a few unexpected items into a "fluffy goop" potion. Discover the secret ingredient that turns pencils into paints, black lines into circus elephants, and torn paper into painted landscapes.

## Science Surprise

(Grades K-5)

Unbox the surprising world of science as you discover a new STEM topic in each class! Learn about several specialized areas of science, including forensics, geology, meteorology, entomology and mechanical engineering. Gain foundational science knowledge that will help future science endeavors.

## 6-in-1 Space Fleet Robot

(Grades 3-5)

Build and take home your very own Solar Space Fleet Robot! This innovative kit can transform into six different lunar modules including a Space Station, Space Rover, Space Explorer, Astronaut, Space Shuttle and Space Dog. Using your own mini solar panel, watch as direct sunlight brings the kits to life! Watch as it moves around, speeds up or slows down depending on the intensity of light as you learn, experiment, and have fun with solar power! Each can also be powered by your very own mini rechargeable battery.

## Creatures and Cultures

(Grades 1-4)

Explore a variety of art materials and techniques to paint pointillism, collage paper molas, sew sock critters, draw dazzling chameleons and more!

Name	Age/Grade	Meets	Times	Dates	Location	Fee
